'Budding Roses in a Vase' (1931) by Giorgio Morandi

## *Simplicity and Soul*

As an influential forerunner to Minimalism, Italian artist Giorgio Morandi is known for the simplicity of his landscapes and still-life drawings. "Giorgio Morandi: Works on Paper" explores his technique through a selection of 80 still lifes and panoramas, alongside reworked Polaroid photographs by Nino Migliori, revisiting the landscape around Bologna that featured in so many of Morandi's works.
